KAUNTECH

NOW LIVE

Never lose a business card again.

Scan a card, get the company dossier, and route the lead to WhatsApp, Gmail and Google Sheets in under 30 seconds. The OCR runs on your phone, so it works in a basement expo hall on airplane mode. Nothing you scan ever reaches our servers.

On-device OCR

DPDP Act 2023 compliant

Zero server retention

iOS & Android

01 / HOW IT WORKS

Three taps. Thirty seconds.

01

Scan

Point and capture. On-device OCR reads the card with no network at all — paper, QR or NFC tap.

02

Enrich

AI Intel reads their website and recent news, then hands you the angle that opens the door.

03

Sync

The follow-up is already drafted. One tap sends it and pushes the lead to your stack.

02 / WHAT YOU GET

Everything that turns a card into a conversation.

Offline-first OCR

Full on-device scan. Works where the network dies.

AI Intel

A company dossier and decision-maker read, in seconds.

AI Strategy

Openers, likely objections and your next move.

Five destinations

Sheets, WhatsApp, Gmail, Telegram and webhooks.

AR business cards

A 3D twin of your card that lifts off the paper.

NFC & QR built in

One scanner for every kind of card you meet.

03 / PRIVACY BY DESIGN

Your contacts never leave your phone.

On-device OCR
Cards are read on your phone, not in the cloud.

Encrypted locally
AES-256 storage in your device's internal memory.

Zero retention
Scanned cards never touch Kauntech servers.

DPDP Act 2023
Data minimisation by architecture, not by promise.

Cloud backup is strictly opt-in — you choose what syncs, and you can erase it at any time.

40%
of expo leads are never followed up at all

1,500+
exhibitions every month in India alone

30s
from handshake to a synced, routed lead

22
Indian languages on the OCR roadmap

04 / PLANS

Billed once a year. Priced for how much AI you actually run.

Try everything free for 7 days
50 scans · 10 AI Intel · 10 AI Strategy · no card required

Start free trial

Pro
Individual reps working a handful of events

$12.99 / yr
INR 1,499 / year

- 2,000 scans / year
- 50 AI Intel / month
- NFC, QR & AR template cards
- AI Strategy not included

Referral: +25 scans, +2 Intel

RECOMMENDED

Ultra
Sales teams who close on the follow-up

$19.99 / yr
